

## Our Company

VIAP is a global program and construction management company providing innovative solutions to government and private sector clients worldwide.

We provide exclusive full-service management and engineering for over USD \$6 billion reconstruction and private sector developments in the Middle East and Asia Pacific. We consist of over 200 full-time specialists and 650 professional staff supporting clients. Both technical and non-technical positions represent the diverse specializations in the field of engineering, program management, information technology, business and economics.

Our esteemed clients include Aldar PJSC, United States Army Corps of Engineer (ACE), United States Air Force Center for Environmental Excellence (AFCEE), and United States Naval Facilities Engineering Command (NAVFAC).

VIAP is a wholly-owned subsidiary of Versar, Inc., which is a 39 year-old United States-based project management company delivering engineering, environmental and defense solutions to public and private customers.
